# WELCOME TO THE FUTURE OF PARTS SOURCING

**PartsTrader**  
Connects You With  
Your Suppliers

## HOW IT WORKS

1. Import data from your estimating system.
2. Send it to suppliers you trust.
3. Review the quotes you get back.
4. Choose the option with the right price, quality and delivery time for you.

## Improve Your Choices

Within minutes, your parts request is en route and circles back with competitively priced options. These options give you the power to save money and find the best buying choice for your customer.

## Build Your Bottom Line

Repairers using PartsTrader have increased their margins by over 3.5%, or 6.5% for those seeking multiple competitive quotes — putting extra dollars in your pocket.

## Increase Estimator Productivity

Estimators typically save between 15 and 30 minutes per estimate avoiding phone calls and faxing. Your suppliers are working for you, providing cost competitive quotes that can add directly to your bottom line.

## Avoid Part Returns

Repairers using PartsTrader have part return rates of less than 1% for OEM parts and less than 6% for alternative parts, compared with an industry average of 6% for OEM parts and well over 20% for alternative parts.\*

## Works with Software You Already Use

PartsTrader works seamlessly with leading collision repair systems you may already use including shop management, estimating and pricing software. Job data is keyed in only once and the information is imported into PartsTrader. This workflow reduces double entries and increases accuracy.

## Earn Rewards Points

Earn points for eligible orders every time you use PartsTrader and redeem for equipment for your shop.

## LET SUPPLIERS COME TO YOU

Simple and efficient. PartsTrader is exactly what you need when it comes to sourcing parts. And the entire process is completed online, which means no more waiting on hold on the phone, no more faxes and no more database searches. All documentation is a click away. Sourcing parts the PartsTrader way saves you time, gives you access to more quotes with competitive pricing, and frees you up for other tasks.
